North Karachi Sector 3

Motivated and detail-oriented aspiring MERN stack developer with over 6 months of dedicated learning in web development. I have built a solid foundation in both front-end and back-end technologies, including HTML, CSS, JavaScript, React, Node.js, and MongoDB. With beginner to intermediate-level experience, I've been actively applying my skills through projects and hands-on practice. I'm now looking for an opportunity to grow further, contribute to real-world development teams, and continue my journey toward becoming a full-stack developer.

KEY COMPETENCIES

HTML5
CSS3
JavaScript (ES6+)

React.js
Node.js
Express.js

MongoDB
Git & Git Hub
Tailwind CSS

PROFESSIONAL EXPERIENCE

Patriot Limousine

SEP 2024 - JUN 2025

Virtual Assistant - remote (US-based)

Handled scheduling and dispatching for a U.S.-based luxury car service, assisting clients with booking rides for both business and personal needs. Managed real-time ride requests and coordinated with drivers to ensure timely and efficient service. Developed strong communication and multitasking skills while working in a fast-paced, client-focused environment. This role started as a side hustle but became a great opportunity to grow professionally and handle responsibility independently.

Solutions AUG 2024 - SEP 2024 Sales representative

Worked briefly as a sales rep for Etisalat bundle packages, reaching out to potential customers via cold calls. Successfully closed 3 sales within the first month and engaged several more leads who expressed future interest. Though short-term, this experience helped me build confidence in communication, customer handling, and sales strategy, all while managing the challenges of remote coordination with a Dubai-based team.

EDUCATION

GDG College Buffer Zone
HSC (General Sciences)
(Marksheet Pending)

2022 - 2023
